Subject: Analysis of Flood Hazard Re-Evaluation Report for Pilgrim Station
LetterJRWAtoNRC_2016Jan18_FINAL.pdf
CRC PNPS Analysis Report_Dec2015_FINAL.pdf

Dear NRC Staff,

On behalf of Jones River Watershed Association, please find attached a newly released report, **Analysis of AREVA Flood Hazard Re-Evaluation Report for Pilgrim Nuclear Power Station (Dec. 2015)**, as well as a letter outlining its major findings and our continuing concerns regarding Pilgrim's vulnerability to coastal hazards. Given that our winter season is now underway, we hope the NRC will implement additional ways to monitor and secure operations at Pilgrim.

Unless requested, we will not be distributing hard copies of the letter and report. In addition to being attached to this email, the report can be accessed at: http://www.capecodbaywatch.org/wp-content/uploads/2012/06/CRC-PNPS-Analysis-Report_Dec2015_FINAL.pdf.

Feel free to contact me, or Pine duBois at pine@jonesriver.org, with any questions.

Thank you,
Karen Vale
